 **S21 CCTV**

Game-changing CCTV review,
powered by AI, designed for simplicity,
and priced to be affordable for everyone.

Included as standard:

Motion and Audio Analysis

Quickly identify various levels of motion or audio across video footage or targeted regions to find relevant parts fast.

Multi-Sync Playback

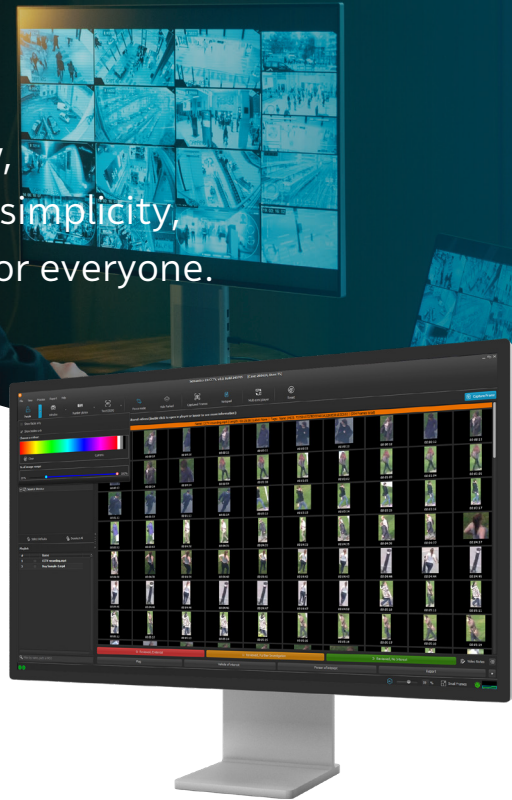

Easily synchronise and review footage of the same incident from multiple devices at different viewpoints in real time.

Vehicle and Person Identification

Rapidly identify scenes with people, vehicles (inc. colours), number plates and text (OCR).

Frame Enhancement

Make the most of your evidence with enhancements to recolour greyscale footage, upscale faces, remove shadows and motion blur.

 Video Playback	 Video Sliding	 Extensive Format Support	 Comprehensive Reporting	 Device Analysis	 In-App Video Training	 Offline Mapping
 Annotations	 Number Plate Analysis	 OCR Analysis	 Segment Exporting	 Person Detection	 Vehicle Detection	

Complimentary demonstrations and trial licences available upon request
